Summary

Designed for Fighter Pilots

Explore the Revolutionary Skytec™ American Gray Lenses

Originally custom-designed for U.S. Air Force fighter pilots, this cutting-edge lens offers an unparalleled visual experience, preserving true color and contrast in all lighting conditions and terrains.

Imagine eyewear that pushes the boundaries, delivering exceptional clarity and optimal visual performance, even in the most demanding situations. The Skytec™ American Gray lens has been meticulously crafted to provide you with sharp and precise vision, whether you're soaring at high speeds or facing diverse weather conditions.

With advanced technology, this exclusive lens intelligently filters light, reduces glare, and enhances contrasts, allowing you to see the world around you with exceptional visual acuity.

Choose excellence with the Skytec™ American Gray lens—the ultimate choice for those who demand the best from their visual experience, whether in the air or on the ground.

Purpose-driven high-performance lenses.

SKYTEC™

Crown 1.5 Mineral lens

Our most popular corrective lens material, crafted to the highest standards.

Our Skytec™ lens offers perfect light transmission, UVA/B and IR filtration, and enhanced durability thanks to its natural scratch resistance.

Skytec™ lenses are available in:

- Single vision, polarized or non-polarized
- Progressive, polarized or non-polarized

SKYFORCE™

MR8 1.6 Organic lens

Our corrective lens material offering the best balance of weight and impact resistance.

With Vector™ anti-reflective coating on the inner surface, our Skyforce™ corrective sun lenses ensure clear, undistorted vision.

Skyforce™ lenses are available in:

- Single vision plain tints, polarized or non-polarized
- Single vision gradient tints non-polarized
- Progressive plain tints, polarized or non-polarized
- Progressive gradient tints non-polarized

RANDOLPH® Color Lenses

AMERICAN GREY

Our specific gray-based tint, specially designed for fighter pilots, maintains true color perception regardless of lighting conditions or operational environment.

AGX

Our green-based tint enhances soothing wavelengths of the light spectrum to reduce eye strain while improving visual performance.

AMERICAN TAN

Our specific brown-based tint enhances contrast and depth perception for clear and precise vision, even in cloudy conditions.

BLUE HYDRO

Our blue-based tint enhances clarity outdoors in overcast conditions and brings colors to life. A category 2/B tint that provides overall contour enhancement and sharper color definition.

Colors and Variations

Lens colors and anti-reflective coatings may slightly differ from the plano version.

SKYTEC™ lenses are systematically tempered.

SKYFORCE™ lenses are surface-tinted to ensure a uniform color regardless of the prescription.

Freeform lenses for the entire range

Go beyond standard single vision lenses and discover our Skytec™ & Skyforce™ freeform lenses, designed with the precision of a custom-made premium product. Thanks to our advanced optimization algorithms, each lens is crafted to be thin and perfectly tailored to your prescription, providing unmatched clarity and comfort.

SkyPro™: Take your vision to the next level.

Thanks to the perfect blend of cutting-edge technology and expertise, our premium progressive lenses are crafted with precision using the most advanced freeform machines. With OptoTech Minimal Distortion Technology (OMD), SkyPro™ minimizes distortions for clear and precise vision. Each lens is custom-designed to meet your individual needs, ensuring quick adaptation and optimal comfort. Enjoy sharp distance vision, impressive definition, and stable image quality for an unparalleled visual experience.

Benefits

- Maximum visual performance
- Clear vision in all directions
- Good visibility even in the peripheral zones
- Thin and lightweight lenses

WARRANTY

Randolph sunglasses are covered by a 2-year warranty from the date of purchase (B2B) against manufacturing defects or faults. The warranty does not cover damage resulting from improper use or accidental breakage.

SCRATCHES OR BREAKAGE (LENSES)

Blackstone Distribution does not offer a warranty against scratches or breakage of lenses. However, within 12 months from the original invoice date, lens replacements will be offered with a 40% discount.

GRADUATION ERROR - ADAPTATION WARRANTY (2 MONTHS)

During the first 60 days, any changes will be charged with a 40% discount. After 60 days, they will be considered as a new order, 100% chargeable.

AFTER-SALES SERVICE PROCEDURE

All after-sales service or returns must be requested from Blackstone Distribution's customer service via the online form. It is imperative to provide photos to initiate a possible free replacement.

Returns should be shipped to BLACKSTONE DISTRIBUTION, Service Retours, 102 route de Limours, Bâtiment F5, 78470 Saint-Rémy-Lès-Chevreuse.

PERSONAL USE

A 25% discount is available once per year for personal use of corrective sunglasses or for store staff.

PARTNER OPTICIANS BENEFITS (10 Rx orders or more per year)

Partner clients receive the following benefits :

A 11th graduated sunglasses for free.
